OBJECTIVE

I'm a final-year student at Ton Duc Thang University. I've used Java (Spring Boot), JavaScript (NodeJS/Express) for Back-End, JavaScript (React-Redux) for Front-End, and MongoDB or MySQL for the database. Recently, I'm interested in Machine Learning, researching this field and I've finished the book Deep Learning Co Ban (Nguyen Thanh Tuan).

SKILLS

Java

JavaScript

Python

Spring Boot

ReactJS, Redux

ExpressJS

MongoDB

MySQL

EDUCATION

Aug 2017 - Now

Ton Duc Thang University

Major: Software Engineering.

GPA: 7.42/10

May 2018 - Nov 2018

Green Academy

Java Application Development

Certification of Java Application Development issued by Green Academy.

PROJECTS

Github Link: <https://github.com/duypham9895>

Florist (Website)

Web application for managing business of flower shop.

Programing Language: Javascript.

Front-end: React, Redux.

Back-end: ExpressJS.

Database: MongoDB.

Link: <https://florist-sunshine.herokuapp.com/>

Graph

Find the shortest way between nodes using Dijkstra's algorithm.

Programing Language: JavaScript.

Front-end: React, Redux.

Back-end: ExpressJS.

Database: MongoDB.

Link: <https://graph-online.herokuapp.com/>

CERTIFICATIONS

TOEIC 640 issue by IIG.

Dec 2018

MERN Stack Front To Back: Full Stack React, Redux & Node.js as taught by Brad Traversy on Udemy.

Nov 2019

ACTIVITIES

Sep 2019

Volunteer for MARATHON REVIVE 2019

Supporting member for athletes.

Dec 2018

Volunteer for MARATHON TECHCOMBANK 2018

Supporting member for athletes.
